Once again, Interlake artists will be showcasing their work for the public in the WAVE Interlake Artists' Studio Tour, which is presented twice a year: in June and in September. The WAVE is a great opportunity to see some of the Interlake region's best artists in their studios. The second tour will be taking place the weekend of Aug. 31 & Sept. 1, when over 25 artists will be opening up their studios so that members of the public can both see the artists at work and purchase some of those artists' works. The best way to take in the WAVE is to plan your route ahead. You can download the WAVE brochure at watchthewave.ca. It's a good idea to use Google maps (or a GPS device) to find the different studios. Invite a friend and hit the road. Tour hours are from 10 am to 6 pm both days of the WAVE. As well, most artists are open year round by appointment, but call ahead to confirm a time.
